

National MA @2008 Codes Topic Test

Directions: This is a 15-question free response test. Write all answers on the answer sheet on the last page of the test and turn in the answer sheet when you finish the test. All correct answers are worth either 1, 2, or 3 points as indicated on each question; there are 30 total points possible for this test. All answers should be written in English – do not write your answer using the code in which the question was written.

Questions 1-5: Each encrypted message is a question. Write the ANSWER to the question in the answer blank.

1. W B A D I F T H I J T L E N P P U R F T U V T X E Z
A H C T E S G H I R K E M N O L Q S S O U R W E Y N ?

(1 point)

2. AI NROFI LACFOYTI CLATI PACEHTSI TAHW?

(1 point)

3. WOSHCRETRSDNOTENTDTTSEASEI UHFTEI EPNRUETI H?

(2 points)

4. XI BU GPVS MFUUFS QBMJOESPNF JT B TZOPOZN GPS NJEEBZ?

(1 point)

5. O W M T N O
H N A H O M
D Y Y L F E
A A R U J H
Y S E I N T ?

(1 point)

Questions 6-15: Decode each phrase or quotation and write the decoded message on the answer sheet. Some of the quotations are attributed to someone whose name also must be provided to earn the points (sometime this name is separate from the quote, and sometime the name is included with the message – your answer sheet indicates when a name is necessary).

6. GSV IVZO KILYOVN RH MLG DSVGSVI NZXSRMVH GSRMP YFG DSVGSVI NVM WL.
 attributed to Y. U. HPRMMVI
 (2 points)
